

QwikClean® Foaming Coil Cleaner

QwikClean® cleans heating and refrigeration coils, fins, and fan blades with a heavy-duty foam that breaks down and carries away dirt, dust, grease, oil and other residue. QwikClean® has been developed for use on refrigerators, window, and whole-house air conditioners, rooftop HVAC units, auto radiators, air-cooled equipment, condenser and evaporator coils, metal filters, to name a few. It leaves a pleasant lemon fragrance.

- For heating, refrigeration & air conditioning coils
- Will not clog fins or coils
- Water based, heavy duty, alkaline detergent

DIRECTIONS / SHAKE WELL BEFORE USING

1. Test in a small, inconspicuous area for product compatibility before using.
2. Turn off or disconnect power to unit being serviced.
3. Point opening on spray button toward surface to be cleaned. Spray until the surface is completely covered and thoroughly saturated.
4. For evaporators, condensation will rinse the emulsified material from the surface. For all other surfaces, rinse with water.
5. On heavily soiled surfaces, repeat application as necessary. When finished, return power to the unit.
