

QT6000 QwikSEER+ WattSaver[®]

Recently highlighted on the U.S. Department of Energy website, QwikSEER+ WattSaver[®] is the affordable solution to enhancing A/C or heat pump systems, Typically Saving homeowners 10% or more on annual operating costs! Plus QwikSEER+[®] can improve the the humidity removal rate by 566%!!!

- ▶ Simple, Fast Installation
- ▶ Compatible with most A/C and Heat Pump Systems
- ▶ Web-Based Installation Support and Video tutorial

Here's How It Works....

QwikSEER+[®] is an innovative and cost effective electronic control that operates in the cooling mode of an existing air conditioner or heat pump. By varying the airflow of the blower motor, QwikSEER+ WattSaver[®] provides the best balance of airflow for the conditions in the home. By modulating airflow, the total power draw of the system is reduced. This enhances system performance while providing energy savings and helps lower the high humidity level in the structure to provide improved comfort.
