

QT7711 - QwikDescaler+ Kit®

Complete descaler kit includes:

1 qt Concentrated Descaler Solution, mixing bucket, circulation pump (400gph) and all necessary hoses to clean tankless water heaters

QT7710 - QwikDescaler+®

(1 Gallon) Concentrated Biodegradable Calcium, Lime, Rust & Scale Remover. **1 gal. makes 6 gals.**

QT7712 - QwikDescaler+®

(1 Quart) Concentrated Biodegradable Calcium, Lime, Rust & Scale Remover. **1 qt. makes 6 qts.**

- ▶ QwikDescaler+® quickly dissolves water scale, lime, rust, and other water formed deposits.
- ▶ QwikDescaler+® restores full efficiency to heat exchangers, heaters, tankless water heaters and any other appliances where flow passages must be kept free of mineral deposits.
- ▶ Keeping heating passages free of mineral deposits significantly improves efficiency, conserves energy, reduces energy costs and extends the life of equipment.
- ▶ **Unique Color indicating Chemistry...** Tells you when more Descaling solution is needed and when cleaning is complete. At working strength, the descaling solution will appear reddish. When the

descaling solution is exhausted and no longer working, it turns yellowish indicating that more QwikDescaler+® should be added. The system is clean when the reddish color is retained for 10 minutes.

- ▶ Safely restores equipment to full efficiency and opens flow passages
- ▶ Calcium scale deposits cause significant reductions in heat transfer, resulting in reduced efficiency, reduced capacity and increased energy costs. A thin layer of scale, as small as three hundredths of an inch (0.03 inch), can increase energy consumption and the cost of operation by 30%.

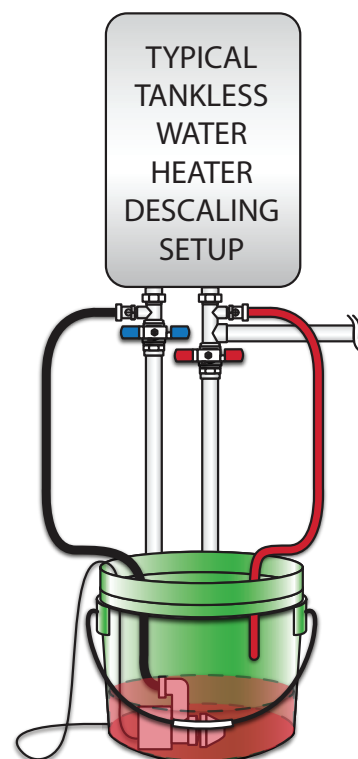

Concentrated Descaler Solution

- ▶ Safe to Handle
- ▶ Non-Corrosive
- ▶ Non-Toxic
- ▶ Biodegradable
- ▶ Zero V.O.C.
- ▶ Economical – All these features at a great price!

The **QT7710** Concentrated Descaler solution is available in economical gallon containers; *one gallon makes 6 gallons* of descaler.

The **QT7711** Descaler Kit Has everything needed for Cleaning Tankless Water heaters that have ¾ inch garden hose service connections, including a mixing container, quart of concentrated Descaler solution, circulation pump and necessary hoses.

The smaller **QT7712** quart container Concentrated Descaler solution, *one quart makes 6 quarts* of cleaning descaling solution.
